WARM-UP

Talk about the questions with a partner.

1. Do you use an app to learn something? Does it help?
2. What makes a good teacher?

USEFUL LANGUAGE

I use... to...

A good teacher is...

It is three o'clock in the morning. You do not understand your homework, and everybody is asleep. You type your question, and an answer comes back in five seconds. For many students today, this is normal. Artificial intelligence, or AI, is now a **tutor** in millions of homes. Some teachers are happy about this. Other teachers are worried.

Why do students like it? A good AI tool can **adapt**. It gives harder questions to a fast student and more practice to a slower one. It can explain the same idea in five different ways. It never gets tired, and it never gets angry.

But there is a problem. When students **rely** on a machine too much, they stop learning. If AI writes your essay, who learned to write? Teachers also want students to be **honest** about their work. Some schools now teach students how to use AI well. Other schools say no to it.

Nobody has the answer yet. AI can find information in one second, but a machine cannot give you every **skill**. Two students can use the same tool: one learns more, and one learns nothing.

Maybe the real question is not AI in school. Maybe it is: what do we want school to be for?

DISCUSSION

USEFUL LANGUAGE I think... · For me... · because... · It depends.

- 1 Have you used AI to study or to write? What happened?
- 2 Would you like an AI tutor at home? Why or why not?
- 3 What can a human teacher do that a machine cannot do?
- 4 Is it OK to use AI for homework? When is it not OK?
- 5 What do you think school is really for?

O1 CRITICAL THINKING

WHERE IS THE LINE?

Five students use AI for their homework. Who is cheating?

Work in a group. Mark every line **OK**, **NOT SURE** or **CHEATING**. Your group must agree on every line.

WHAT THE STUDENT DOES	THINK ABOUT THIS	OK	NOT SURE	CHEATING
AI checks the grammar in her essay.	She wrote every word herself. The ideas are hers.	☐	☐	☐
He asks AI to explain a difficult idea.	A friend or a teacher could explain it too.	☐	☐	☐
She writes in her language. AI translates it.	The ideas are hers, but the English is not.	☐	☐	☐
AI writes one paragraph. He changes it a lot.	How much must he change? Who decides?	☐	☐	☐
AI writes the essay. She sends it to the teacher.	She does not read it first. The teacher cannot see this.	☐	☐	☐

YOUR RULE Finish the sentence: It is cheating when _____

- DISCUSS

1

The teacher cannot see how the student worked. Does that change your answer?

2

Compare with another group. Which line did you not agree about?
